"Open Your Heart" is a new type of meeting for our group where we dine at tables with heart patients with similar issues—A-Fib, Heart Failure, Valve Disease, Coronary Artery Disease, etc...! This is a meeting for heart patients and caregivers to "dine with a cardiologist" and share your heart health issues and concerns, have a personal conversation (if you wish to) about your personal heart story, and get your questions answered on having a quality of life after a serious heart event.

Our group has been blessed with 21st century medical advances and the greatest doctors in the world at the Ohio State Wexner Medical Center and Ross Heart Hospital. This dinner meeting is also an opportunity to express our gratitude and love for our doctors, nurses, and many caregivers!

Our group seeks to inspire, comfort, and support heart patients and their families, and people at risk for heart disease, throughout the central Ohio community. We share heart success stories, strive to stay healthy long-term, and host educational meetings each month! We also volunteer and visit heart patients at the Ohio State Ross Heart Hospital and University Hospital East.
